**2023 Western Mining Directory  
and 2023 Western Mines Map!**

The 2023 Western Mining Directory is now available in interactive Pdf format on a Flash Drive. The directory lists over 203 mining companies, 180 mines and 170 projects and properties. Both Mines and Mining Companies are listed alphabetically and geologically. Comprehensive information is provided in each section, including corporate offices, affiliated companies, websites, as well as addresses of corporate offices, regional offices, exploration offices and mines. Mine information includes names of managers, location, open pit, underground, type of recovery, product, operator, reserves, grade, mining rate and number of employees.

The **Flash Drive** contains a Contents file which enables you to reference each section. In addition, the Flash Drive contains no security settings, allowing you to copy and paste into your word processing documents. The Flash Drive is universal, allowing for use on all platforms. Computer requirement: Acrobat and/or Acrobat Reader.

**Western Map** shows locations of gold, silver, platinum, copper, molybdenum and coal mines in the eleven western United States. The Map is 26.75" x 40" in size.
